Dear Ms. Friesner:

Your story arrived yesterday. It is GREAT! Anyone with only a vague idea about astrology will recognize Virgo in the first two paragraphs. And to think that this is not even your birth sign!

So far only two stories have been submitted. Hopefully, the others will follow in the near future. We will be in touch when the project is completed.

Are you planning to attend the Boston Worldcon? If so, please let us know as Andre would like to meet you personally.

Thank you for your participation and contribution.

Sincerely,

Ingrid A. Zierhut

Dear Ms. Zierhut:

Thank you so very much for your kind letter. I was extremely happy to hear a favorable reaction to A PLACE FOR EVERYTHING, particularly because Virgo is not my birth-sign and the neighborhood Virgos have been asking pointed questions about how I treated them, above all the Virgo who lives under my own roof.

I am indeed going to attend the Worldcon in Boston. This will be a new experience for me. I've never been to a Worldcon, but I suppose it's one rite of passage best gotten on with as painlessly as possible. I would be very happy to meet you and Ms. Norton there, and I certainly hope the huge convention population won't make that impossible. I'm looking forward to it.

Again, thanks very much for your letter. I can't wait to see what the Moon Child story (my sign, after all) is like!

Best,

April 28, 1988

Dear Ms. Friesner,

Thank you so very much for your prompt reply to our request. Also, for being willing to venture into the "Earth" signs. I have put you on the list for "Virgo". It is interesting to see the replies. The "Water" people were the first to appear. I guess that makes sense!

Andre and I are very excited about the project, and about the various reactions we will get. Should this book fall into the hands of a serious astrologer I can imagine the comments!

On my recent trip to New York I spoke with Tom Doherty and Jim Frenkel about the book. Jim wants to see it when we have a few stories. Ace will be notified also. Bantam brought out Linda Goodman's Sun Signs, and possibly there may be an interest also. I believe in back-ups.

If you have any further questions, please send me a note. Ms. Paxson wanted to know if it was in our galaxy - which it is. And should we define the "seed entities" further. I told her that the basic characteristics assigned to each sign were all we had in mind. We feel the freedom of total creativeness was part of the fun. Does that make sense to you?

Andre sends her best.

Sincerely,

Esther M. Friesner, Ph.D.

VIRGO

April 21, 1988

Dear Ms. Zierhut:

Thank you very much for your recent letter concerning the Star Anthology. It sounds very interesting and I would like to participate.

No doubt most of your respondents will be asking to do their own Zodiac signs as a first choice. I am no different, and would like to put in a bid for the sign of Cancer. My second choice would be either Scorpio or Virgo.

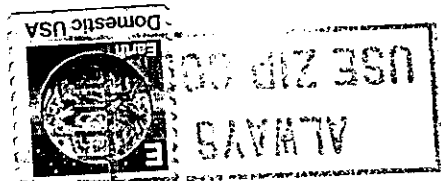

Please let me know your decision regarding the assignment of signs, as well as the completion date of the project as soon as there is one.

Thank you very much for thinking of me.

Very truly yours,

Walter Park, FL 32789
